

Teacher

Hsiao Wan Yi

Teacher Wan Yi started off her musical journey as a young learner and has experienced all the highs and lows just like many others did.

While notes and rhythms form a musical piece, she believes that it is the infusion of one's heart and soul that evokes the real essence of music.

As a teacher, she is dedicated to guiding her students to feel the emotion and style of each piece while helping them build a strong foundation that will support their growth in their music development.

Teacher Wan Yi has a flair for coaching students for performance and teaches students at the advance level. Besides that, she is an internal examiner within the studio and performs regularly during events.
